

S5000 Series

Electrified Storefront Rim & Vertical Rod Exit Devices

SDC's S5000 is a heavy duty, code compliant alternative to magnetic locks for storefront applications that require durability, superior aesthetics and smooth operation.

This UL305 panic-rated exit device is American Made, featuring all metal construction that is particularly suited to aluminum glass entrances for both manual and automated door openings and new or retrofit applications.

Not only does the SDC S5000 meet the market need for a storefront exit device with electric latch retraction standard, it also comes with optional request-to-exit monitoring for access control compatibility.

The S5000 with factory installed motorized electric latch retraction makes application as easy as install – power – done.

- Electrified storefront design
- Motorized electric latch retraction and dogging
- High traffic use
- Low-energy automatic door operator compatible
